

Flooring Trends

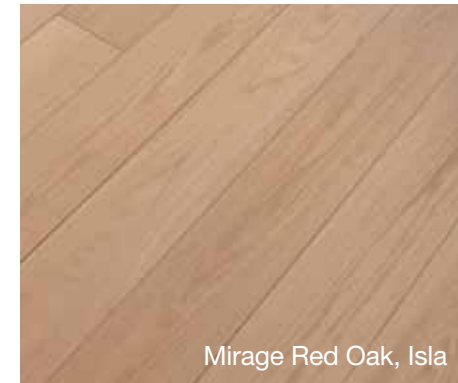

Flooring Tips

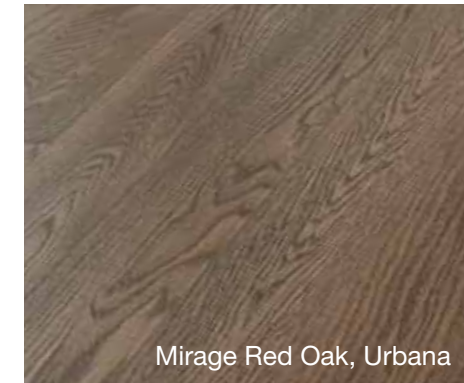

with Jackie Morra, Interior Decorator, Home Décor Solutions

The brand new **Mirage Alive Series** offers three inspiring colors that harmonize beautifully with urban, country, and seaside décor and reflect key hardwood flooring trends.

- ① The lightly brushed look of the Alive Series offers a one-of-a-kind textured effect. It conceals everyday scuffs and marks, making it the perfect choice for today's busy families.
- ② New trends tend to favor lighter colors for a more natural, relaxed, and organic look. As people become more environmentally conscious, species that are locally harvested are gaining popularity. The Alive Series is a breath of fresh air for this northern species that many people associate with more traditional décors.
- ③ Wide floor planks are all the rage these days. Mirage offers you a whole range of product options.
- ④ The oiled-floor look is extremely popular, but maintenance can be difficult. Mirage's Cashmere® finish, available in the Alive Series, gives you the same look and all the beauty of natural wood without the maintenance issues of oiled flooring.
